

DIAMONDS---Healthy Homes Systems Found Diamonds in My Home

Carl Reppert, Owner
Healthy Home Systems, Inc

Many property owners don't realize that their basements and crawl spaces are diamonds in the rough.

Now is a great time to uncover the valuable space right in your own home. A dry and healthy basement space will add value and pleasure for the whole family. Many of our clients have found a variety of uses for their new found gems and are able to gain an entire lower level in their home. They have uncovered a convenient unused crawl space that is now an additional dry storage area.

After we uncover their diamonds, our customers say- "I wish I would have called Healthy Homes years ago, I did not know it would be this easy to have a dry basement".

Healthy Homes Systems, Inc. is a leader in the waterproofing industry, a straight forward no nonsense professional company with over thirty years experience. We provide our customers with information and the specifics regarding the work and a written quote in plain English. Our company always provides a free written estimate to the property owners. Additional information can be found on our web site. www.FixMyBasement.com. It will provide a waterproofing resource for you. Our quick response to questions has helped many homeowners with minor repairs and we are available for follow-up calls to help them with their project.

While some companies may spend hours applying high pressure sales techniques

motivated to help themselves. Healthy Homes feels that by providing the right solutions, along with our capabilities to customize the work for your home and budget, it will produce a successful project that you will be proud of for years to come. That is how we protect our customers and continue to get referrals. We prepare and protect all work areas, as the owner I am usually on site, but there is always supervision and qualified foreman that can answer questions. All of our personnel conduct themselves in a professional matter and will respect your family and property. Customer satisfaction and project follow up are very important to us.

The majority of our business has been built on customer referrals. It is the best complement that our customers can give our company and we take getting referrals very serious. The first step is to set the appointment. HHS is very flexible; we provide day, evening and weekend appointments that are convenient to fit our client's busy schedule.

Homeowners, Contractors, and Realtors rely on Healthy Homes Systems, Inc to provide our wide variety of services.

Interior Services include Basement and Crawl Space Systems, French Drains, Sump Pumps, Wall and Floor Coating, Epoxy Repair, Masonry Sealers, Vapor Barriers, Battery and Water Back-up Systems and more.

Exterior Services: Landscape Drainage Corrections, Garage and Yard Drains, Dry Wells, Buried Discharge Pipes, Bamboo Containment Barriers and more.

Foundation Structural Repairs: Property owners and contractors take advantage of our professional engineering services. Licensed in Pennsylvania and New Jersey we can provide sealed drawings, documentation for permits and structural certifications for our clients. We provide real estate professionals priority client care, performing foundation inspections, interior and

exterior water remediation and structural certifications when time is of the essence.

If you are experiencing a wet or damp basement or crawl space, don't hesitate to call Healthy Homes Systems for a free evaluation and a written proposal for the scope of work. Healthy Homes is fully insured. All work is guaranteed and will comply with local building codes. Healthy Homes is a member of the National Association of Waterproofing and Structural Repair Contractors, Better Business Bureau, NORMIPRO Environmental TASC Force and the CBCC
