Registered Nurse,
Licensed Esthetician,
Owner*

At Eden Organics Salon & Spa, we are obsessed with skincare! Our multitude of professional skincare offerings are ever increasing to help our clients achieve the best skin of their lives! From the very beginning, Eden Organics has always had a focus on organic and natural skincare products. We have an ingredient commitment with every product used in our treatments and offered in our boutiques. Our products contain natural and organic plant-based ingredients. They are free of paraben and synthetic fragrance, and most are also gluten free and vegan.

We are proud to introduce our newest treatment called the HydroGlo Fusion Facial! This treatment uses the power of advanced exfoliation with our HydroGlo Fusion hydro-microdermabrasion device, paired with a multitude of advanced treatment modalities. This treatment is

fully customizable for every skin type and can include microcurrent lifting, LED firming, collagen-boosting ultrasound therapy, and ultrasonic cleansing and oxygen product infusion.

Our multitude of professional skincare offerings are ever increasing to help our clients achieve the best skin of their lives!

This powerful device, combined with the absolute purest and most advanced organic and natural skincare products, is a virtual fountain of youth. Pores disappear, lines and wrinkles are smoothed and softened, and skin is left with an incredibly vibrant glow! Our clients are loving how pairing one of our organic enzyme peels with the HydroGlo Fusion Facial is giving them the most luminous skin of their lives! This advanced treatment is state of the art and not offered anywhere else but Eden Organics Salon

& Spa. Our Licensed estheticians are extremely excited to be able to offer our clients this amazing option for their skin!

We are committed to helping our guests achieve the best skin

of their lives! That's why we offer over 15 different professional and customizable facials. Not sure which one is right for you? A consultation with one of our professional and licensed estheticians is the perfect solution. Our consultations are always complimentary, and our estheticians can make the best treatment recommendation for your skincare goals. Call one of our locations today to schedule your complimentary consultation and let us show you the Eden Organics difference!
