

Putting the Spring Back in Cleaning

Welcome warmer weather with a professional clean!

Director of Operations, Holly Goodwin and Owner, Elsa O'Brien

It's finally here! We've traded the blustery cold of our polar vortex-inspired winter for the warmer days of spring, and it's time to enjoy milder weather and all the bright flowers that follow April showers.

As anyone who owns a home or office knows, however, spring can present its own cleaning challenges. All that sunshine sheds light on corners that may have gotten dusty or rooms that may have gotten extra-worn as people stayed indoors during the winter months. Spring is also high season for allergies from pollen, and, while showers lead to flowers, they also lead to mud that gets tracked inside by people and pets.

Happily, You've Got MAIDS of Quakertown and Lehigh Valley has developed a signature 52-Point Spring Clean™ to meet the challenges of the season and get you on track to throw open those newly cleaned doors and windows to all things bright and warm. With a checklist that covers every room of your house, the 52-Point Spring Clean™ ensures that virtually every surface of your home sparkles.

The 52-Point Spring Clean™ is one of our most requested services, but we also offer completely customized cleans to match a range of needs and budgets. Whatever service you choose, here's what always stays the same:
