

I Wish I Had Thicker Hair!

Anita Polin has worked in the beauty industry for over 40 years. Education is her passion, and she has been teaching for 17 years. Anita presently travels to salons in New York, Pennsylvania, and Virginia teaching stylists about color and hair products. She finds that helping others succeed in the industry she loves is very rewarding. Her love for wigs and hair additions began when she worked for Disney World. Seeing how people change when they put something on that makes them feel beautiful started Anita thinking. She went on to take advanced training in wig work for men and women. She says, "In this industry, we change lives. I am just as excited today as I was when I first started my career. I'm always learning, sharing my knowledge, and helping people feel amazing!"

We know how hard it is when you begin to see your hair change. All you want is to have the hair you had when you were younger. There are some simple solutions that can help. Coloring your hair adds density. Using the best products for your hair type can add thickness and volume. Blow drying and styling your hair the right way can also add volume.

But some of us need more help than that. We have either lost

our hair or are seeing it get thinner due to medical reasons. Some people have alopecia or a thyroid problem or have gone through chemo treatments. Losing hair is a devastating problem. You need a solution. You need to know what your options are.

Here at Salon 360, we can help you decide on the best solution for your personal situation. All you need to do is to set up a private consultation. We will

give you options... from human full-hair enhancements to custom toppers that add thickness just where you need it. The color, density and curl pattern are designed just for you. Synthetic hair pieces can also be ordered for you.

It is all about you having your confidence back. You are able to stop working so hard on your hair, frustrated that you're still not getting good results. Now you can have your beautiful hair

back! No one will know you have a hair addition. We train you how to maintain your piece, or, if you prefer, our salon can do that for you. We want you to have the confidence you deserve.

Salon 360 is a full-service salon. We provide custom coloring, cutting, formal finish, smoothing treatments, makeup, nail services and body massage. Call us for a free consultation to answer all your questions.

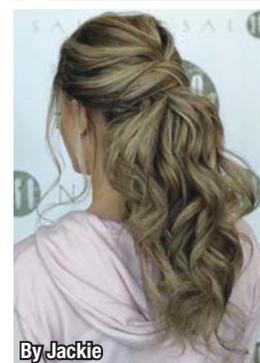

Call for a consultation today to help you choose a beautiful look that gives you all the confidence that you need.
