

Meet Terree & Autumn and wear the wonder

and of course to have our own flagship store. I envision it in Manhattan, but we will be sure to let the world know once we make that goal a reality!

In the meantime, here is some background information. I began Wear The Wonder in the fall of 2015 when I learned about new media on which to print photographs. Up to that point, I had been trying to find a way to get my nature photography out in the world but wanted to do more than framed artwork. I moved on the idea right away with the first product, the Wondercuff—a lightweight metal cuff bracelet in two sizes (narrow and wide). Since then, we've added many more products and are selling online from our webstore as well as at some local venues in Pennsylvania and Massachusetts.

I am at the point in my life where my children are all grown and on their own, and so it's now time for me to travel and create the imagery that we will turn into products in our store. I document all of life through my lens whether I am home or away! I am fascinated by everything, from the simple moments and life on a country

road to the grandest of travels far and wide from peaks to oceans, rivers, valleys, and deserts.

The world is my subject, and my hope is to transfer my images to items that folks can use and enjoy in their everyday lives...so they don't have to travel to the end of earth as I did but can still enjoy seeing a guanaco perched high atop the hills in Patagonia or a glacier near Cape Horn or the vines in a vineyard in Santiago, Chile. The world is an endless series of beautiful moments that offer inspiration in daily life. We hope the ones we chose to transform into items to bring others joy will have folks wearing the wonder and sharing the good vibes these places brought to our hearts.

If you are interested, follow us on social media as we are always sharing something new! You can shop online at WearTheWonder.com day or night. We appreciate all those who have supported us these last few years as we've been building our wonderful company! Thank you! We hope you will enjoy all the new ways we are offering to consume art.

Hello! We are a mother & daughter company called Wear The Wonder that creates personal accessories and home decor items from our own vibrant nature-inspired photographic images.

I, Terree, am the photographer and creative director alongside my oldest daughter Autumn who runs the company while also hand-crafting jewelry and home decor pieces. In addition, we

offer one-of-a-kind art pieces to adorn the walls of homes and office spaces. I am in Pennsylvania, and Autumn works in our headquarters which is on the lower level of her Massachusetts home.

We are inspired by so many other businesses in this country that have started the same way, and our hope and dream is to see our products being sold at retail stores nationwide one day

Patagonia Collection

Our Patagonia collection consists of women's fashion accessories, cuff bracelets, home decor items, decorative throw pillows and photographic art, all from real professional photography by Terree O'Neill Yeagle, inspired by the colors of Buenos Aires, the glaciers and mountains of the terrain in Patagonia and the glowing sky against the ocean of Easter Island.
